Welcome to our annual production sale, 2020 marks the 32nd sale! Come early and join us for lunch beginning at 11:30, with the sale starting at 1:00 p.m. Following the sale, all bulls will be returned to our ranch and fed, at no additional charge, until we deliver them starting the first of May. For early viewing, the bulls will be at the Glasgow Stockyards beginning February 11th.

2019 was an interesting year in eastern Montana as far as the weather goes. The ample moisture helped to produce some great crops including the 2019 bulls! The 85 registered yearling bulls offered for sale are a very uniform group with many outstanding individuals by each sire. The bulls have performed well on feed, gaining about 3.3 pounds per day through the end of December. We base our bull selection on the traits we find most important to the success of any breeding program: balanced performance, maternal traits, beneficial carcass merits and a calm demeanor. We continue to use Angus GS genetic testing for the bull calves and our replacement heifers for increased accuracy in genomic data. Better genomic data gives our customers more accurate selection tools and allows us better selection criteria for moving our herd forward in the direction we are aiming.

This year, we are proud to offer some top quality commercial replacement heifers at the sale. We will be bringing 40 head of heifers, ready to go home with you after the sale. These heifers come from cows with a strong AI sire background and offer excellent maternal traits.

Here at Wittkopp Angus we try many new sires, working to produce functional cattle that perform in Montana range conditions. We are excited about these new sires and the qualities they bring to our herd. These bulls offer deep, long-bodied calves that have excelled in our program! As always, there are outstanding individuals represented from our herd sires including the first offering from Mytty Cavalry 6318 and Vermilion Spur D162. On the other side, our cow herd has been carefully developed over the past 30 plus years using the industry's top AI sires and purchased herd sires from prominent breeders. With change we have been very careful to keep our focus on what we want our cows to do, what we want them to be. That consistency has produced an outstanding set of females, who are the basis of our program.

When considering these bulls, bear in mind that they are March and April calves. They will continue to grow and develop over the next few months. As always, the bulls are fed right here at the ranch enabling us to monitor them on a daily basis. Our goal in feeding these bulls is to achieve reasonable growth, yet not jeopardize soundness. After the sale, we bring the bulls back to the ranch and feed a maintenance ration.

Feel free to stop by the ranch, 7 miles southeast of Circle on Highway 200 South, to look over the bulls and replacement heifers any time prior to February 11th. Give us a call, we would be happy to visit with you about the sale offering or assist you in choosing a bull to meet your needs. Sale day is Thursday, February 13th, 2020 at 1:00 p.m. We look forward to seeing you there! Thanks to all of you for your friendship and support of our program over the years!

Best wishes,

Curt, Sue, and Family

WITTKOPP ANGUS

32nd Annual
Production Sale

Thursday February 13, 2020

Glasgow Stockyards • Glasgow, MT
Lunch at 11:30 am • Sale at 1:00 pm

85 Registered Yearling Angus Bulls

Bulls wintered free until May 1st

40 Commercial Yearling Angus Heifers

All bulls selling are free from recognized genetic defects by test or pedigree unless otherwise noted.

Sale Day Phones

Curt Wittkopp Cell (406) 974-3552
Joe Goggins Cell (406) 861-5664
Glasgow Stockyards (406) 228- 9306

Auctioneer

Sale Day Representatives

Jared Murnin, Western Ag Reporter. . (406) 321-1542
Matt Wznick, Tri-State Livestock . . . (406) 489-2414
Glasgow Stockyards (406) 228- 9306

Cattle Inspection

Cattle will be at the ranch (7 miles southeast of Circle on Highway 200 S) through February 10th; the bulls will be at the Glasgow Stockyards beginning February 11th.

Fertility Testing

All bulls will be fertility tested once they have reached 1 year of age. If a bull is determined to be an unsatisfactory breeder, the seller will replace the bull with a bull of equal value, refund the purchase price or issue a credit for a future purchase.

Terms and Conditions

- All bulls sell under the Terms and Conditions of the American Angus Association
- Catalog, penning and sale order is determined by date of birth. All bulls will sell in catalog order
- All announcements from the auction block take precedence over any printed material
- The auctioneer has complete charge of the sale. Any dispute in the bidding will be settled by the auctioneer and his decision will be final

Delivery

Free delivery for bulls will be offered within 250 miles. All bulls will be delivered beginning May 1st unless other arrangements have been made.

First Breeding Season Guarantee

First Breeding Season Guarantee: All bulls will be covered 50% by Wittkopp Angus if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of bulls. 50% of the value of the injured bull will be given as credit in a future Wittkopp Angus sale or towards a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. ALL CLAIMS MUST BE MADE BY SEPTEMBER 15, 2020.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
 - more accurate selection
 - easier identification of genetic outliers
 - the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	26	Heifer Pregnancy	17
Birth Weight	23	Calving Ease Maternal	20
Weaning Weight	27	Milk	36
Yearling Weight	23	Mature Weight	15
Dry Matter Intake	12	Mature Height	9
Scrotal Circumference	15	Carcass Weight	15
Docility	12	Yearling Height	17
Claw Set	10	Carcass Marbling	11
Foot Angle	10	Carcass Ribeye	17
		Carcass Fat	14

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

+49	+38	+57	+0.15	+49	+151

A son of the popular Barstow Cash, Bankroll offers an exciting phenotype. He is an eye-catcher, adding length and depth to any program. He has outstanding EPD's that place him in the top 2% in BW and the top 4% in CED and Docility. He is also in the top 10% for \$F. Bankroll consistently sires some of the best calves we get out of our first-calf heifers. We are impressed with both the males and female offspring he has sired in our program.

KM Broken Bow is a complete package of calving ease and tremendous carcass merit. He is a moderate-framed bull that is heavy muscled and easy on the eyes. His progeny has been producing successfully in many programs throughout the industry, including our own. His EPDs put him in the top 10% for CED, BW, and \$W.

CONNEALY SPUR

Cavalry was the top selling bull at the 2017 Mytty Angus Ranch sale. He offers a balanced set of EPD values combined with length and deep rib. We are very pleased with his first set of calves. The bull calves have performed very well carrying length, rib depth and muscling with correct structure and a moderate frame. The females we kept out of Cavalry are also a very uniform group of deep bodied heifers. We are very excited for the future of Mytty Cavalry in our program. Be sure to look these calves over!

Yearling Heifers

Following the bull sale, we will be offering 40 commercial yearling heifers. The heifers come from cows with a strong AI sire background and offer outstanding maternal and performance traits. They are sired by our herd sires or the referenced AI sires. Buyers will take possession of the heifers on sale day.

Notes

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

*Thank you for attending our
32nd Annual Sale!*

We appreciate your support of our program.

*See you
next year!*
